

# “The need for a new art of education. The *whole* of life must be considered.”

Rudorf Steiner, 1995, *The Kingdom of Childhood*, USA: Anthroposophic Press.

A 3-month enrichment programme to prepare play-based kindergarten children for school, to support home-schoolers and to balance the academic experiences for school going children. Your child will experience learning through form drawing, stories, songs, movements, games, handwork, beeswax modelling and wet-on-wet painting. This programme focuses on adding to the richness and imagination of your child's own work while exploring the fun of learning.

Note: These pictures are taken from the Bridging Programme ran in the year 2012 to prepare a group of six years old children for school.
